Dear EPA Administrator,

I am writing as a small business owner, asking the EPA for cleaner water and a cleaner environment. Our firm, Adroit Solutions Inc, based in Hanover County Virginia, specializes in factory automation. We work in many industries in Virginia, such as waste water treatment facilities. We would benefit from any actions that would require cleaner water, such as rewriting the TMDL to maximize reductions from point sources.

Our local firm employs well-paid engineers, in jobs that cannot be outsourced overseas. Increases in clean water regulation would not only make Virginia a more attractive place to live, it also would help firms like ours stay healthy and profitable.

Regards,

Sheryl Smith
President, Adroit Solutions, Inc.
